Building a Chatbot:

The screenshot displays the IBM Watson Assistant Lite web interface. The browser's address bar shows the URL: `us-south.assistant.watson.cloud.ibm.com/crn%3Av1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3AA%2F2d484cbddd334218a749107dd7cb256b%3A64...`. The interface includes a top navigation bar with 'IBM Watson Assistant Lite', 'Upgrade', 'shop', and 'Learning center'. A left sidebar contains navigation options: 'Actions', 'Variables', and 'Saved responses'. The 'Actions' section is expanded, showing a list of actions created by the user. A table lists the actions, with one action visible: 'i want to purchase some things', last edited 12 hours ago, with 1 example and a status of 'Success'. A 'New action' button is located at the top right of the table. A 'Preview' button is at the bottom right.

Name	Last edited	Examples Count	Status
i want to purchase some things	12 hours ago	1	Success

Integrate to application:

The screenshot shows a web browser window with multiple tabs: (2) WhatsApp, Service Details - IBM Cloud, IBM Db2 on Cloud, and Online Shopping. The address bar shows the URL 127.0.0.1:5000/userlogin. The main content area of the 'Online SHOPPING' website features a large image of a gold watch. Below the image, the heading 'Your Personal Details' is followed by a table containing user information.

Name	Gender	Age	Email
soundarya	female	30	soundarya@gmail.co

Below the table, the text '© All rights reserved | Design by Online Shopping' is visible. A blue virtual assistant chat window is overlaid on the right side of the browser. It contains the text 'Hi! I'm a virtual assistant. How can I help you today?' and three example prompts: 'Example: Find nearby location', 'Example: Check account balance', and 'Example: See how I can help'. At the bottom of the chat window is a text input field with the placeholder 'Type something...' and a yellow circular button with a white 'I' icon. A small banner at the bottom of the chat window reads 'Built with IBM Watson®' and 'Activate Windows. Go to Settings to activate Windows.'
